# WORLD CIRCUS DAY 2021

The World Circus Day, with a history of more than 10 years, became a tradition in the global circus community and above.

The last one year and a half put all of us into a challenging situation - in our life unprecedented - due to the pandemic.

Nevertheless, besides all kind of restrictions we witnessed great willingness and lots of virtual and life activities designed to mark and make WCD 2021 memorable and joyful. The global circus community used the WCD events to demonstrate its resilience, strength and its readiness for revival.

The audience longs for visiting life shows, for applauding nice acts, and for sharing a smile and happy moments.

The Fédération Mondiale du Cirque initiated in 2009 the international celebration of circus arts, designating the third Saturday of April for that.

Participants are requested to register their events on FMC's website, and provide us information. Usually we receive lots of greetings, reports, photos from many countries. Based on that material FMC's Associated Member, Planet Circus, edits the WCD Special every year.

The world is changing fast, and the way of communication is not an exception either. The pandemic accelerated even more this phenomenon. First time in 2021 we received more videos than photos about the WCD events.

Therefore the decision was taken to keep up with the new standard and produce the extended online version of the Special. We hope you will enjoy it. The Special brings back nice memories of WCD 2021, and gives the opportunity to see how oth-

ers celebrated. The advantage of the online addition is that we are able to share it with many of you.

The Special is made and can be made thanks to your registered activities and collaboration.

On behalf of the Fédération Mondiale du Cirque under the honorary presidency of Princess Stephanie I would like to convey our appreciation for your continuous support and we are looking forward to the next World Circus Day on the 16th April 2022.

Long live the circus!

Urs Pilz
